1. A fuel storage depot was observed on the West side of the village of Zinna near Jueterbog on 8 September 1951. Three trucks were seen arriving at the depot which was guarded by Soviet Airforce guards wearing light-blue epaulets with black piping.
2. It is reported that this is a reserve fuel depot for the nearby Soviet Airforce units. Three large tanks, partially underground, were observed through the trees bordering the depot. Each of these tanks is alleged to store 10-1300 liters of fuel. The trucks carry full drums between the depot and Jueterbog-Altes Lager.
